Association of Counselling Psychologists

Dr Elizabeth Velutich

Masters in Clinical Neuropsychology and Ph.D., UWA

Liz has worked as a Psychologist from 2006, and is endorsed in the area of Clinical Neuropsychology. She has worked across a number of settings within the public health service and the private sector, including working in senior leadership roles within WA Health (A/Director & Specialist Neuropsychology Coordinator, Neurosciences Unit) and shifted to full time private practice in 2014. She has over 14 years of expertise in the neuropsychological evaluation of a varied and complex caseload. Liz regularly provides consultation to colleagues and supervision of clinical neuropsychology trainees and registrars. Liz regularly undertakes work as an Expert Witness across WA and the NT. She is somewhat of a bush neuropsych who regularly travels to regional and very remote regions across Australia to perform Neuropsychological work, and has a special interest and training in cultural competence. She is currently involved in lecturing on decolonising clinical neuropsychology practice for masters students, and is developing a lecture series on culturally responsive practice for the UWA honours program.

Dr Daniel Mo

Fellow of Royal Australian and NZ College of Psychiatrists

Dr Mo has been working in mental health for 13-14 years. He has worked in various public roles from Joondalup to Rockingham and everything in between (e.g. SCGH, RPH, Bentley, PCH etc.) used to lead the Acute Treatment Team at Bentley, then moved to overseeing SACTT (mental health hostels) until 2020 when he started Lifepoint Clinic where he remains medical director.

Tracee Uink

B.Psych, Postgraduate Certificate Org. HR and Safety, Grad. Dip. Consultancy Psychology

Employment experiences include criminal justice, health, and not for profit. Including significant volunteer experience with a service that provides support to patients with dementia and delirium or at risk of developing delirium. Personal experience during adulthood includes advocacy and support for people dealing with criminal justice system (youth and adult), domestic-family-interpersonal violence, and/or mental health need

Karen Ugle

B.Psych. PhD Candidate, Curtin University

Karen is a Ballardong Nyungar woman and registered Psychologist. A founding member of the Australian Indigenous Psychologists Association and committee member at Dumbartung Aboriginal Corporation. She has worked in the field of Psychology since 2005 and was fully registered as a Psychologist in 2007. Karen has held positions of Counsellor, Clinician, Cultural/Clinical Supervisor and Consultant across government, non-government and community-based organisations. She is currently delivering therapies as a Private Practitioner and has extensive experience working with a large range of mental health presentations. Karen delivers "best practice" therapies in a culturally safe and secure way.
